6. What factors are important when choosing between v-if and v-show?
(Select all that apply)

[Show Results](#)

30/30 Students Answered

- A v-if removes the HTML from the DOM. ✓
- B v-show toggles CSS display to hide or show. ✓
- C There is no practical difference, so the choice is unimportant. ✗
- D The hiding versus removing matters during form submission. ✓
- E A v-if must be accompanied by a v-else. ✗
